Financial Education and Career Planning
Weekend Spending Log

Directions

Use this form to record all of your financial transactions for this weekend.

Record how much money you spend using the columns on the right. If you go to a store and spend money on multiple items you do not need to list each item, just the total amount of money that you spent on that trip to the store. Keep track of ALL money spent, even small amounts such as money for a soda or the bus.

Record how much money you earn or receive in the columns on the right.
